n.d.: not detected, level strictly below the declaration limit of 10 ppm (0.001 %).

*: one of the 26 allergens historically subject to labelling.

In the finished cosmetic product, these substances must be listed in the ingredients when their level exceeds 0.001 % in leave-on products and 0.01 % in rinse-off products.

These data are obtained by calculation, based on the information available on the raw materials used in the fragrance. This document does not replace the obligations of the person responsible for placing the finished product on the market.

Information certified accurate to the best of our knowledge and within the limit of detection at the date of printing.

Document produced and managed electronically. Valid without signature.
